i ceilings
SOUND SYSTEMS

Typical Projector System

i-ceilings Sound Panels have been installed into a wide range of training, presentation and conference facilities, all of which benefit from the high levels of intelligibility, unique aesthetic qualities and the overall technical performance of NXT technology.

- Highly intelligible voice reproduction
- Reduced microphone feedback, minimising interruptions during presentations
- Uncompromised interiors
- Wide range music reproduction

Installation example:
Skill Fast UK

Product:
i-ceilings Sound Panels

i-ceilings are installed as part of the AV presentation system in the conference facilities of Skillfast UK, the Sector Skills Council for the UK textiles industry.
